ABOUT THE SPEAKERS

Christine Loscher, PhD, is a Full Professor of Immunology at Dublin City University. She leads the Immunomodulation Research Group which has a focus on translating how modulation of the immune response has health benefits. Dr. Loscher's focus includes discovering new anti-inflammatory/anti-allergic compounds and ingredients that can be used in the pharma and food industry. She is a Principal Investigator in the Food for Health Ireland Technology Centre and served on the Scientific Advisory Council at Kerry Foods from 2015-2017.

Montserrat Álvaro, MD, PhD, is a consultant Teaching and Research Coordinator in the Pediatric Allergy and Clinical Immunology Department at the Sant Joan de Déu Hospital in Barcelona. She has the accreditation as "European Pediatric Allergist" of the European Academy of Allergy, Asthma, and Clinical Immunology (EAACI, Education and Training Committee -Section of Pediatrics of EAACI) and of the Spanish Association of Pediatrics. She received her Master in Pediatric Allergy and Clinical Immunology from Barcelona University. In addition to her clinical work, Dr. Alvaro is a highly regarded researcher and an established leader in the field of pediatric allergy, who has co-authored 49 scientific publications, mostly in the pediatric allergy field. She is the past chair of the Pediatrics Section and is the current Chair of the Immunotherapy Interest Group of EAACI.
